

Project Design Phase
Proposed Solution Template

Date	19 February 2026
Team ID	LTVIP2026TMIDS62122
Project Name	Startup Success Prediction System Using Machine Learning
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1	Problem Statement (Problem to be Solved)	Clearly define the core problem your solution addresses. Explain who is affected, why the problem exists, and the impact of not solving it.
2	Idea / Solution Description	Detailed explanation of the proposed solution, how it works, key features, and how it solves the identified problem.
3	Novelty / Uniqueness	What makes your solution different from existing alternatives? Highlight innovation, competitive advantage, and unique value proposition.
4	Social Impact / Customer Satisfaction	Describe the positive impact on society or target users. Explain improvements in efficiency, accessibility, affordability, or quality of life.
5	Business Model (Revenue Model)	Explain how the solution generates revenue (Subscription model, Freemium, Commission-based, Licensing, SaaS, Ads, etc.).
6	Scalability of the Solution	Justify how the solution can grow to support more users, regions, or industries. Mention cloud deployment, microservices, automation, or platform expansion.
